Big lease for Park Lane project

A big North Dallas office lease adds to the mixed-use Park Lane project on North Central Expressway.

The 33.5-acre mixed-use project across from NorthPark Center signed its first major office lease for 50,000 square feet with Kosmos Energy.

Developer Harvest Partners is hoping that office leasing in the retail and residential project will lead to the start of a 20-story office tower.

The first phase of the \$750 million Park Lane project will open early next year.
